SUMMARY

Qualified Cosmetologist and Junior Hairstylist with formal training in skin biology, hair structure, and cosmetic chemistry. Brings 1 years of premium retail experience selling fragrance and colour cosmetics, paired with 3 months of hands-on hairdressing in a live salon environment. Combines technical hair skills with expert product knowledge and a consultative, personable approach. Seeking to leverage both creative styling ability and commercial retail acumen within a forward-thinking salon.

PROFESSIONAL EXPERIENCE

Junior Stylist

July 2025 – December 2025

- **Technical Delivery:** Perform precision cuts, blow-dries, and semi-permanent colour services independently.
- **Cosmetology in Practice:** Apply knowledge of hair porosity and scalp health when recommending treatments. Conduct thorough patch tests prior to colour services to prevent adverse reactions.
- **Product Sales:** Consult clients on home haircare regimens, retailing professional brands by explaining ingredients and expected results. Consistently achieve product attachment rate of 30% on colour services.
- **Client Retention:** Build strong rapport with clients through active listening and personalized style advice, resulting in a growing base of repeat bookings.

Beauty & Fragrance Consultant | A Girl Shop

October 2024 – June 2025

2 years of premium retail experience within luxury cosmetics and fragrance.

- **Consultative Selling:** Delivered high-touch customer service on a fast-paced sales floor. Exceeded monthly sales targets by 40% through personalized fragrance profiling and skincare diagnostics.
- **Cosmetology Application:** Advised customers on product formulations suitable for sensitive skin, oily/complexion concerns, and age-related changes. Translated technical ingredient knowledge into accessible client benefits.
- **Colour Matching:** Expertly matched customers to foundation and concealer shades using brand-specific tools and undertone analysis — a skill directly transferable to hair colour formulation.
- **Merchandising & Stock Control:** Maintained immaculate brand standards. Conducted regular stock counts and identified slow-moving lines to inform replenishment orders.
